Academic Projects

Inventory & Supply Chain Management System

August 2023 – July 2024

- **Backend:** Spring Boot for managing product inventories, suppliers, and order fulfillment.
- **Frontend:** React.js for dynamic product listings, order tracking, and reporting, with Tailwind CSS for a modern UI.
- **Features:** Stock management, order tracking, purchase history, and supplier data.
- **Use Case:** Automate inventory management, reduce supply chain inefficiencies, and improve decision-making.

Online Banking System

August 2023 – July 2024

- **Backend:** Spring Boot for managing accounts, transactions, and security features like two-factor authentication.
- **Frontend:** React.js for secure user login, account dashboard, and transaction history.
- **Features:** Fund transfers, transaction history, account management, and alerts.
- **Use Case:** Provide secure online banking services, automate financial transactions, and enhance user experience.

Academic Achievements

- Implemented a biometric attendance tracker system for college to track and export attendance of students in CSV format.
- Improved the UI of college website to include a separate page for Alumni and Teachers
